

Thank your parents
for not freaking out
every time you
fell off your bike.

Remind them about
Medicare prescription
drug coverage.

Medicare_{Rx}
Prescription Drug Coverage

Help is Here.

Starting January 1, 2006, Medicare will help pay for the prescription drugs people with Medicare need to stay healthy. It's important coverage that will save money and provide peace of mind by protecting against high future drug bills. Everyone with Medicare is eligible,

regardless of income and resources, health status or current prescription expenses. So remind your parents—and everyone you know who has Medicare—that sign-up for this much-needed coverage is going on now. It's the least you can do considering all they've done for you.
